

**pürleve**  
hygienic door handle

### AN OPEN DOOR OPPORTUNITY

With the threat of germ cross-contamination more globally recognized than ever before, the latest survival strategy among today's Away-From-Home patrons has become simple: "Don't touch anything!" Yet, with all the modern "touch-free" advances in restroom hygiene, it's hard to grasp why the door handle has been so universally ignored. Until now. Enter Pürleve™, the innovative and proprietary solution that offers your patrons a cleaner way out... every touch, every time.

- Three product categories offer easy installation on any standard push-pull, locking or latching door
- Advances a sleeve with Microban® antimicrobial protection over the handle after every use – Microban protection inhibits the growth of odor causing bacteria, keeping the sleeves cleaner for continuous protection.
- Reduces germ cross-contamination
- Provides superior facility image
- Low maintenance, low cost
- Green Product - Recyclable Refill, Supports in Reduction of Paper Towels.
- Thousands of uses per refill

#### See Pürleve in Action

Pürleve™ installs easily, replacing any standard Push - Pull or Latch Handle, and offers you the simple-to-use and **"Green"** sanitary solution you have been reaching for.
