

## **EnviroSeal<sup>™</sup> Installation+Replacement**

## and BioPūr<sup>™</sup> Kit Replacement

To Install the First EnviroSeal<sup>™</sup> System (Elastomer or J-Trap) and BioPūr<sup>™</sup> Kit or Privacy Dome

1. Remove EnviroSeal<sup>™</sup> and BioPūr<sup>™</sup> Kit from packaging. Lightly shake the EnviroSeal<sup>™</sup> system to ensure trap is secure. If a rattle is heard, <u>go to step 2.</u> If no rattle is heard, <u>go to step 3</u>. 2. Unscrew the EnviroSeal<sup>™</sup> housing. Ensure the trap is secured, turn clockwise. Once secured, place the EnviroSeal<sup>™</sup> housing back on system by turning clockwise (bayonet system).

**WARNINGI**: Be careful when removing as the EnviroSeal corners are SHARP! Hold the side of the EnviroSeal when unscrewing (see arrow in #2)

3. First, ensure the gasket is in place all around the EnviroSeal<sup>™</sup>. If not in place, the seal will not be optimized. Place EnviroSeal<sup>™</sup> above Proprietary Urinal Trap.

**Note:** If used in a non-ZeroFlush urinal, use at your own risk and performance not guaranteed. Ensure the housing is removed before installation.

4. Firmly push down around ENTIRE CIRCUMFERENCE of EnviroSeal<sup>™</sup> outer edge to ensure it is in place with NO gaps between Enviroseal<sup>™</sup> and metal ring.

**Note:** For non-ZeroFlush urinals, ensure the EnviroSeal is placed EVENLY (No Tilt) in trap or odors could occur.

5. After removing the BioPūr<sup>™</sup> Kit from packaging, screw a new BioPūr<sup>™</sup> Kit (#1) or Privacy Dome (#2) onto the EnviroSeal<sup>™</sup> until firmly in place. However, DO NOT OVERTIGHTEN.

## To Replace the EnviroSeal<sup>™</sup> (Estimated 6 Month Solution)

 Push down and turn counterclockwise to remove the BioPūr<sup>™</sup> Kit or Privacy Dome from the EnviroSeal<sup>™</sup>. Please recycle.

2. PUSH then screw the Threaded Key into the center hole.

3. Once a strong engagement is achieved, pull up at a slight angle. Before placing new EnviroSeal<sup>™</sup>, ensure urinal trap is clean. Refer to cleaning instructions.

Note: Recycle all used parts.

## To Replace the BioPūr^{\mbox{\tiny T}} Enzyme Block or BioPūr^{\mbox{\tiny T}} Premium Gel Kit

Turn the BioPūr<sup>™</sup> Kit cover clockwise and Pull Up (#1). Remove residual enzyme. Place a new BioPūr<sup>™</sup> enzyme in the cage (#2). Place cover on kit and turn clockwise until cover falls into place. Lightly Pull Up on cover to ensure 'locked' into place (#3).

Push Down on edges of BioPūr<sup>™</sup> Kit cover and Turn counterclockwise to remove the BioPūr<sup>™</sup> Kit (#1). Recycle the used BioPūr<sup>™</sup> Kit (#2). After removing protective packaging, screw a new BioPūr<sup>™</sup> Kit onto EnviroSeal<sup>™</sup>. Turn clockwise until firmly in place, DO NOT OVERTIGHTEN (#3).
