

Pürleve Urinal BioTab

A CLEANER WORLD IS WITHIN REACH

The Pürleve BioTab is designed for water-savings, odor control and trouble-free maintenance of all low-flush, conventional flushing urinals / troughs and no water urinal systems. The BioTab helps clean the drains by leveraging its biologically active formulations that break down organic matter, including the matter found in urine. It reduces maintenance costs by providing free flowing drains in no water urinals.

Benefits of the BioTab!

- Powerful performance
- Premium fragrance release lasts up to 30 days
- Break down organic matter in drains to help keep clean
- Eco Friendly
- Effective in High Traffic areas
- Use in any type of urinal

100% BIO

NO BATTERIES

Pürleve Urinal BioTab

Helpful Hints:

- Regular monthly use of Pürleve's BioTab on both no-water and low flow flush urinals can significantly reduce the frequency of plugging, urinal downtime and odor.
- Do not use in Pürleve or ZeroFlush no water urinals if Pürleve BioPür already in place.
- Depending on traffic, ensure replaced under 30 days to optimize performance.
