Pūrleve PūrAir
Air Freshener System

A CLEANER WORLD IS WITHIN REACH

The Pūrleve PūrAir provides a simple, yet effective odor masking solution for small to large spaces. Unique fragrances were formulated to perform up to 30 days without batteries or fans. It is effective in restrooms, on restroom stalls, conference rooms, entry ways, lobbies and other public spaces. The Pūrleve PūrAir is 100% recyclable and is part of a closed-loop recycling program.

Benefits of the PūrAir!

- Powerful performance
- Premium fragrance release lasts 30 days
- Easily installed in any Public Space for strong odor control
- No Batteries or Fans Required
- Eco Friendly
- Material biodegradable and recyclable
- Numerous color and fragrance options

Helpful Hints:

- Ensure the surface is cleaned and dry before mounting the Dispenser.
- If possible, place dispenser on the top of inside door or on wall near where door closes. The opening & closing of the door will generate the air flow to help further disperse the fragrance.
- For multi-use bathrooms, using 2 or 3 of these in strategic locations will significantly mask any malodor.
- Place in concealed locations high up on wall/door when possible to optimize performance and reduce vandalism.
