Pürleve PürClip

A CLEANER WORLD IS WITHIN REACH

The Purleye PurClip contains 10X more air freshening fragrance than the standard rim sticks and provides odor control for over 30 days. The clip works on the outside of bowls (beneath the seat) on the tops of restroom partitions, and on the sides of toilet tanks to combat odors and create freshness.

Benefits of the PūrClip!

- The clip easily secures in place
- Shrinks to a tighter fit as fragrance evaporates
- 100% recyclable
- Does not dissolve when wet
- Does not pollute the water
- Innovative designs
- Numerous color and fragrance options

Helpful Hints:

- Ideally place in areas concealed from bathroom patrons to avoid theft. On the toilet rim, on the side of the urinal tank, behind the toilet tank, etc. are ideal.
- Using 2 or 3 of these in strategic locations around the toilet will significantly mask any malodor.
