*AIR CARE
INNOVATION
FOR THE
GLOBAL
MARKET*

PURLEVE OFFERING A FULL PORTFOLIO OF BEST-IN-CLASS SOLUTIONS

Air Care in today's 'Away-From-Home' environment is not a luxury, it's a Global market necessity! Air Care is essential for successful facility management and the current systems are not meeting the Global customer demands. The customer is searching for a greener profile, lower cost in use and higher performing system to satisfy the needs of the washroom occupants. These Air Care customer demands maximize washroom hygiene and energy conservation, which drastically improves the 'image' of the facility.

PURBREEZ ADVANCED METERED AIR CARE SYSTEM

The PurBreez system creates a fine mist that allows the fragrance and odor control formulations to remain airborne for hours more than the heavier aerosol particles. The PurBreez 'Next Generation' mist generating dispensers use proprietary refills, patent pending design, advanced programming options, premium fragrances & the proprietary PM² (Purleve Malodor Management Technology).

PURAIR60 PASSIVE METERED AIR CARE SYSTEM

The Purleve PurAir60 System provides a simple, yet effective 60 day odor control and neutralizing solution for small to large spaces. Leveraging the breakthrough DAP™ (Draw and Push) proprietary technology, the system enables continuous and metered air care with exceptional effectiveness and duration far superior to traditional wick system. The PurAir60 also features the PM² (Purleve Malodor Management Technology) and a patented design that optimizes the fragrance and odor control metering while avoiding any spill.

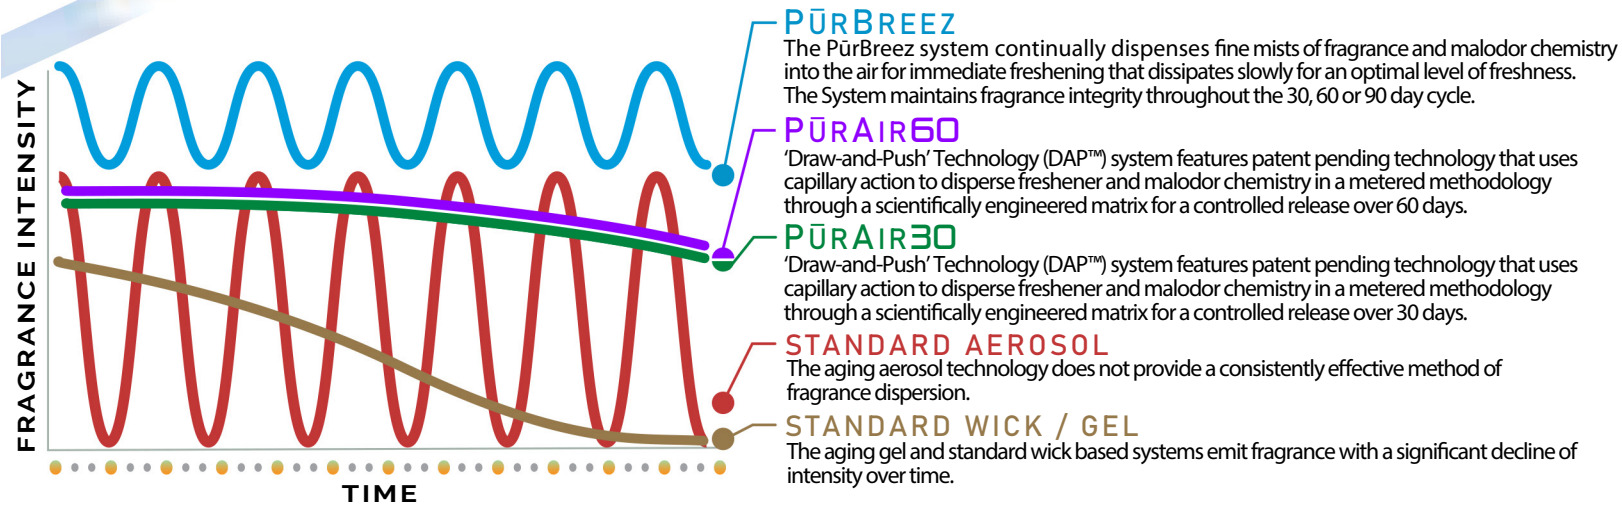

PURAIR30 PASSIVE METERED AIR CARE SYSTEM

The Purleve PurAir30 System provides a simple, yet effective 30 day odor control and neutralizing solution for small to large spaces. Leveraging the breakthrough DAP™ (Draw and Push) proprietary technology, the system enables continuous and metered air care with exceptional effectiveness and duration far superior to traditional wick system. The PurAir30 also features the PM² (Purleve Malodor Management Technology) and a patented design that optimizes the fragrance and odor control metering while avoiding any spill.

PURLEVE OFFERS A SYSTEM THAT'S BEST FOR YOUR GLOBAL ENVIRONMENT

DRAW AND PUSH TECHNOLOGY

PURAIR30

DAP™
DRAW AND PUSH TECHNOLOGY

PATENT PENDING FINE MIST TECHNOLOGY

The Purbreez system continually dispenses fine mists of fragrance and malodor chemistry for immediate freshening over a 30, 60 or 90 Day Time Frame.

PATENT PENDING 60 DAY 'DRAW-AND-PUSH' (DAP™) TECHNOLOGY

The Purleve Purair60 system leverages ground breaking 'Draw-and-Push' Technology to ensure continuous dispersion of proprietary fragrance & odor control formulations throughout the 60 day refill life cycle.

PATENT PENDING 30 DAY 'DRAW-AND-PUSH' (DAP™) TECHNOLOGY

The Purleve Purair30 system leverages ground breaking 'Draw-and-Push' Technology to ensure continuous dispersion of proprietary fragrance & odor control formulations throughout the 30 day refill life cycle.

A COLLECTION OF EXTRAORDINARY NEW TECHNOLOGIES

The state-of-the-art Purleve product line features a collection of significant innovations across the air care spectrum.

EXCITING NEW DISPENSING FEATURES

Enhanced programming for customized dispensing and advanced capillary science utilizing patented technologies and designs.

PROVIDING LONG LASTING CONSISTENT AIR CARE

Purleve's Air Care solutions are superior to Aerosols that create intermittent coverage dissipating between bursts and gel technologies that fade drastically in intensity over time.

A Collection of Extraordinary Purleve Innovations for the Entire Air Care Spectrum to Meet Any Facility Preferences!

SUPERIOR PM² ODOR CONTROL FORMULATION

Multi-Phase Odor Cancellation formulations are scientifically created to capture malodor molecules and prevent them from reaching the nose. With up to 90+% PROVEN efficacy, PM² not only eliminates the bad odors, it allows the fragrances to smell BETTER which equals a superior occupant experience.

PURLEVE MALODOR MANAGEMENT TECHNOLOGY

PURBREEZ

ELECTRONICALLY PROGRAM INTERMITTENT FINE MISTS OF AIR FRESHENERS THAT ARE AS EFFECTIVE ON THE LAST DAY AS THEY WERE ON THE FIRST

The Purleve PurBreez system provides a simple, yet effective proprietary odor control and neutralizing solution for small to large spaces. Premium & Proprietary Fragrance Formulations were developed to perform up to 90 days with consistent release of high performing odor control properties. The PurBreez system creates a fine mist that allows the fragrance to remain airborne for hours more than the heavier aerosol particles.

Precision LCD Programming

The PurBreez system provides enhanced programmability for superior air care management and related performance.

The System's precision LCD programming allows facility managers to easily control the time frame of operation, mist intensity, interval and duration.

Benefits of PurBreez

- Cost effective and reliable metered air care system.
- Powerful Fragrance delivery is created by a fine mist.
- Proprietary and powerful malodor neutralizer formulation that performs up to 90 days.
- Energy Efficient: Batteries can last over 12 months.
- LCD Controls allows for performance optimization and clear indicators.
- Numerous high performing fragrances available that last up to 90 days.
- Easy installation and activation for any large public space.
- Contains no solvents or HFC's and is VOC exempt.
- Refill is recyclable.
- Non - Aerosol Solution.

PÜR AIR60

THE PÜRLEVE PÜR AIR60 SYSTEM PROVIDES A SIMPLE, YET EFFECTIVE ODOR CONTROL AND NEUTRALIZING SOLUTION FOR SMALL TO LARGE SPACES.

Premium & Proprietary Fragrance Formulations allow for metered odor control release over 60 days without the need of batteries and fans. The system is effective in washrooms, conference rooms, entry ways, lobbies and other public spaces. The Pürleve Pür Air60 system is recyclable and part of a closed-loop recycling program.

PATENT PENDING DAP™ TECHNOLOGY FOR LONGER-LASTING AIR CARE THAT WILL NOT SPILL, LEAK OR DRIP!

1. Pür Air60 systems contain proprietary air freshener formulations in a non-spill refill.

2. DAP™ technology allows the liquid to 'Draw' & flow consistently from the inner core up to the specially bonded outer wicking surface.

3. Proprietary Fragrance and Odor Control formulations are then 'Pushed' & diffused into the air more consistently & at a higher rate than competing technologies.

Benefits of Pür Air60

- Powerful performance (up to 6,000 cubic feet)
- Premium & Proprietary Fragrance Formulations allow for metered odor control release over 60 days.
- Premium & Proprietary Malodor Neutralizer Formulations perform up to 60 days.
- Easy installation and activation for any public space.
- No Batteries, Fuel Cells, or Fans Required.
- Eco Friendly.
- Fragrance Spill Proof Features.
- GHS and VOC Compliant.
- Material biodegradable and recyclable.
- Numerous fragrance options.
- Refills fit into competitors' dispensers for easy switch to Pür Air60.

PÜR AIR 30

THE PÜRLEVE PÜR AIR 30 SYSTEM PROVIDES A SIMPLE, YET EFFECTIVE ODOR CONTROL AND NEUTRALIZING SOLUTION FOR SMALL TO LARGE SPACES.

Premium & Proprietary Fragrance Formulations allow for metered odor control release over 30 days without the need of batteries and fans. The system is effective in washrooms, conference rooms, entry ways, lobbies and other public spaces. The Pūrleve Pūr Air 30 system is recyclable and part of a closed-loop recycling program.

PATENT PENDING DAP™ TECHNOLOGY FOR LONGER-LASTING AIR CARE THAT WILL NOT SPILL, LEAK OR DRIP!

1. Pūr Air 30 systems contain proprietary air freshener formulations in a non-spill refill.

2. DAP™ technology allows the liquid to 'Draw' & flow consistently from the inner core up to the specially bonded outer wicking surface.

3. Proprietary Fragrance and Odor Control formulations are then 'Pushed' & diffused into the air more consistently & at a higher rate than competing technologies.

Benefits of Pūr Air 30

- Powerful performance (up to 6,000 cubic feet)
- Premium & Proprietary Fragrance Formulations allow for metered odor control release over 30 days.
- Premium & Proprietary Malodor Neutralizer Formulations perform up to 30 days.
- Easy installation and activation for any public space.
- No Batteries, Fuel Cells, or Fans Required.
- Eco Friendly.
- Fragrance Spill Proof Features.
- GHS and VOC Compliant.
- Material biodegradable and recyclable.
- Numerous fragrance options.
- Refills fit into competitors' dispensers for easy switch to Pūr Air 30.

DRAW AND PUSH TECHNOLOGY

SUNSHINE CITRUS

A fruity blend of white grapefruit, fresh orange & sparkling lemon - lime.

FRESH CUCUMBER SLICES

Crisp green cucumbers & Fresh slices of ripe honeydew melon.

TUSCAN CITRON

A refreshing scent of wild sage & citron zest infused with lush garden herbs.

CLEAN LINEN

Crisp & fresh, reminiscent of clean linen sheets drying in the sun.

LAVENDER FIELDS

The refreshing scent combines herbaceous lavender & crisp eucalyptus with hints of orchard citrus.

WHITE TEA

Uplifting blend of crisp, sparkling white tea & ginger.

MEDITERRANEAN BREEZE

A gentle breeze carries the scent of salty air, white driftwood & warm cashmere sands.

FOREST WALK

The fresh aroma of a wild forest with green ferns, warm spices & dense woods.
