

PURLEVE PURAIR60 PASSIVE AIR CARE SYSTEM

PURAIR60 OFFERING A FULL PORTFOLIO OF BEST-IN-CLASS SOLUTIONS

Air Care in today's 'Away-From-Home' environment is not a luxury, it's a Global market necessity! Air Care is essential for successful facility management and the current systems are not meeting the Global customer demands. The customer is searching for a greener profile, lower cost in use and higher performing system to satisfy the needs of the washroom occupants. These Air Care customer demands maximize washroom hygiene and energy conservation, which drastically improves the 'image' of the facility.

Benefits of PurAir60

- Powerful performance (up to 6,000 cubic feet)
- Premium & Proprietary Fragrance Formulations allow for metered odor control release over 60 days.
- Premium & Proprietary Malodor Neutralizer Formulations perform up to 60 days.
- Easy installation and activation for any public space.
- No Batteries, Fuel Cells, or Fans Required.
- Eco Friendly.
- Fragrance Spill Proof Features.
- GHS and VOC Compliant.
- Material biodegradable and recyclable.
- Numerous fragrance options.
- Refills fit into competitors' dispensers for easy switch to PurAir60.

PURAIR60 PASSIVE METERED AIR CARE SYSTEM

The Purleve PurAir60 System provides a simple, yet effective odor control and neutralizing solution for small to large spaces. Leveraging the breakthrough DAP™ (Draw and Push) proprietary technology, the system enables continuous and metered air care with exceptional effectiveness and duration far superior to traditional wick systems. The PurAir60 also features the PM² (Purleve Malodor Management Technology) and a patented design that optimizes the fragrance and odor control metering while avoiding any spill.

PURLEVE MALODOR
MANAGEMENT TECHNOLOGY

SUPERIOR PM² ODOR CONTROL FORMULA

PM² Multi-Phase Odor Cancellation formulations are scientifically created to capture malodor molecules and prevent them from reaching the nose. With up to 90+% PROVEN efficacy, PM² not only eliminates the bad odors, it allows the fragrances to smell BETTER which equals a superior occupant experience.

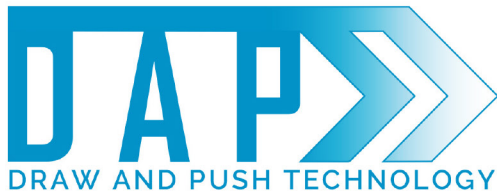

AIR CARE INNOVATION WITH UNMATCHED TECHNOLOGY

PūRAIR60

THE PūRLEVE PūRAIR60 SYSTEM PROVIDES A SIMPLE, YET EFFECTIVE ODOR CONTROL AND NEUTRALIZING SOLUTION FOR SMALL TO LARGE SPACES

Premium & Proprietary Fragrance Formulations allow for metered odor control release over 60 days without the need of batteries and fans. The system is effective in washrooms, conference rooms, entry ways, lobbies and other public spaces. The Pūrleve PūrAir60 system is recyclable and part of a closed-loop recycling program.

SUNSHINE CITRUS

A fruity blend of white grapefruit, fresh orange & sparkling lemon - lime.

FRESH CUCUMBER SLICES

Crisp green cucumbers & Fresh slices of ripe honeydew melon.

TUSCAN CITRON

A refreshing scent of wild sage & citron zest infused with lush garden herbs.

CLEAN LINEN

Crisp & fresh, reminiscent of clean linen sheets drying in the sun.

LAVENDER FIELDS

The refreshing scent combines herbaceous lavender & crisp eucalyptus with hints of orchard citrus.

WHITE TEA

Uplifting blend of crisp, sparkling white tea & ginger.

MEDITERRANEAN BREEZE

A gentle breeze carries the scent of salty air, white driftwood & warm cashmere sands.

FOREST WALK

The fresh aroma of a wild forest with green ferns, warm spices & dense woods.

PROVIDING LONG LASTING + CONSISTENT AIR CARE

1. PūrAir60 systems contain proprietary air freshener formulations in a non-spill refill.

2. DAP™ technology allows the liquid to 'Draw' & flow consistently from the inner core up to the specially bonded outer wicking surface.

3. Proprietary Fragrance and Odor Control formulations are then 'Pushed' & diffused into the air more consistently & at a higher rate than competing technologies.
